

## OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL

RESEARCH REPORT

1. The first part of the report describes the experimental work carried out during the past year. The results of the experiments are presented in the form of tables and graphs. The second part of the report discusses the results of the experiments and compares them with the results of previous work. The third part of the report discusses the theoretical aspects of the problem and presents a model for the reaction. The fourth part of the report discusses the conclusions of the work and suggests directions for future work.
