Administrative Application For
Creation of a Non-Standard 120 Acre
Blinebry Gas Pool Proration Unit
and Simultaneous Dedication
Hugh Wells No. 4 and 9
Blinebry Oil and Gas Pool
Section 14, T22S, R37E
Lea County, New Mexico

State of New Mexico
Energy, Minerals & Natural Resources Dept.
Oil Conservation Division
P.O. Box 2088
Santa Fe, New Mexico 87504

Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval for the creation of a non-standard 120 acre Blinebry Gas proration unit in the NE/4 of Sec. 14, T22S, R37E.

There are currently three 40 acre Blinebry Oil proration units in this quarter section with one well in each unit. The wells are No. 3, 4, and 9. After acid treatments, wells No. 4 and 9 should now be classified as gas wells per the recent GOR tests (copy attached). Chevron's intent is to form one 120 acre non-standard proration unit and simultaneously dedicate production from wells 4 and 9 to the proration unit. Well No. 3 remains an oil well and will not require any changes.

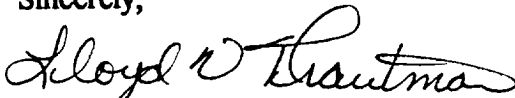

Well # 3 is located at 660' FNL and 1980' FEL, Unit B; Well # 4 is located at 660' FNL and 660' FEL, Unit A; Well # 9 is located at 1980' FNL and 1980' FEL Unit G; all in Section 14, T22S, R37E, NMPM, Lea County, New Mexico.

February 22, 1995

Attached is a plat outlining the proration unit with the location of wells No. 4 and 9, and a map showing the offset properties and wells.

Chevron U.S.A. Inc. requests that administrative approval of this request be granted. If additional information is required, please contact me at (915) 687-7152.

Sincerely,

A handwritten signature in cursive script, reading "Lloyd V. Trautman".
