Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval for the creation of a standard 160 acre Blinebry Gas proration unit in the NW/4 of Sec. 14, T22S, R37E and approval of an non-standard gas well location.

After acid work, well No. 7 should now be classified as a gas well per the recent GOR test (copy attached). Chevron's intent is to form a 160 acre standard gas proration unit. Well # 7 is located at 660' FNL and 2310' FWL, Unit C, Section 14, T22S, R37E, NMPM, Lea County, New Mexico. Well No. 7 is non-standard as it is 330' from a quarter line and not the section line.

Attached is a plat outlining the proration unit with the location of well No. 7 and a map showing the offset properties and wells.

February 22, 1995

Chevron U.S.A. Inc. requests that administrative approval of this request be granted. If additional information is required, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

A handwritten signature in cursive script that reads "Lloyd V. Trautman". The signature is written in black ink and is positioned above the typed name.

Attached is a copy of an Administrative Application for approval of a standard 160 acre Blinebry Gas Proration Unit and an non-standard Blinebry gas well location.

After an acid treatment, well No. 7 on the Hugh lease should now be classified as a gas well. Chevron is proposing to use the NW/4 of Section 14, T22S, R37E to form a 160 acre gas proration unit.

If you have any questions about this application, please contact Lloyd Trautman at (915) 687-7152.

Sincerely,

A handwritten signature in cursive script that reads "Lloyd V. Trautman".
