

SANEDAN OIL CORPORATION
West Texas - New Mexico District
Box 2137 Hobbs, New Mexico

July 7, 1955

New Mexico Oil Conservation Commission
Hobbs, New Mexico

Attn: Mr. A. L. Porter, Jr.
Proration Manager

Will file

Dear Sir:

Please consider this a request for an allocation of condensate for Sanedan Oil Corporation's Parks 9" Lease, Well Number 1, located in NE/4 SE/4, Section 14, Township 22N, Range 37, Unit 1, Lea County, New Mexico.

This well was dual completed, with completion being July 7, 1955, in such a manner as to produce oil from the Grisham oil pool, and gas from the Tubb gas pool. This dual completion was in accordance with New Mexico Oil Conservation Commission Administrative Order Number OC-204, Santa Fe, New Mexico.

It is anticipated by Sanedan Oil Corporation that fifteen hundred (1500) barrels of condensate will be produced each month with the top gas allowable production from the Tubb zone, therefore, Sanedan Oil Corporation respectfully requests an allocation of condensate of fifteen hundred (1500) barrels be assigned to the well for the month of July 1955, and remain the same until this letter is superseded by written notice from Sanedan Oil Corporation.

Very truly yours,

SANEDAN OIL CORPORATION

Jon Bates
District Clerk
