12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well has been producing out of the Drinkard and Blinebry zones. On 1/16/97, we set a CIBP at 6225' and dumped 5 sx cement on top zone abandoning the Drinkard zone. We then added perfs to the Blinebry and re-stimulated. As of February 1997, we will no longer carry the Walden #7 on our C-115 reports in the Drinkard as it has been zone abandoned.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
