(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well is a Tubb-Drinkard dual completion. Conoco is the operator of the Drinkard which last produced April 01, 1990. John H. Hendrix Corporation is the operator of the Tubb Zone which is currently producing. In order to enhance production from the Tubb Zone, Conoco has granted John H. Hendrix Corporation permission to plug the Drinkard and produce the well as a Tubb single. John H. Hendrix Corporation proposes to set a RBP above the Drinkard perfs, to temporary abandon the Drinkard and to plug the zone when it is necessary to plug the Tubb Zone. John H. Hendrix Corporation proposes not to plug the Drinkard at this time in the event Conoco and/or John H. Hendrix Corporation (if they obtain the Drinkard rights) propose to try and establish Drinkard production at a later date.

14. I hereby certify that the foregoing is true and correct
