Gentlemen:

Attached is Continential Oil Company application to the Oil Conservation Commission of New Mexico for approval to complete its Elliott B-15 No. 3 well which is well known to you.

This application is submitted by the oilfield operators in compliance with Rule 112-A (c).

Yours very truly,

W.E. Allen

WPA-RC

STATE OF NEW MEXICO
OIL & GAS
STATE COMMISSION

IN THE MATTER OF THE APPLICATION OF
CONTINENTAL OIL COMPANY FOR AN ORDER
GRANTING IT PERMIT TO DUALY COMPLETE
ITS R. M. BRIDGEMAN-25 (T. 3 - S. 22S,
SECTION 15, R. 37E, N.M.P.M.,
LEA COUNTY, NEW MEXICO

APPLICATION

Comes now Continental Oil Company, a Delaware Corporation, hereinafter called "Applicant" and respectfully requests the Oil Conservation Commission of the State of New Mexico to issue an order authorizing Applicant to dualy complete its R. M. Bridgeman-25 (T. 3 - S. 22S, R. 37E, N.M.P.M., Lea County, New Mexico, in the Trinidad Oil Pool and The Tubb Gas Pool, and in support thereof submit the following:

The proposed gas unit contains 120 acres consisting of contiguous quarter quarter sections.

The dual completion of said well in the Trinidad Formation for oil and the Tubb Formation for gas is in the interest of conservation and the protection of correlative rights.

Segregation of the producing intervals will be made by appropriate packer installation and said well will be equipped so there can be no comingling of well fluids in producing the gas through the annulus between the tubing and casing, and the oil through the tubing. Said well will be equipped in such a manner that reservoir pressures may be determined separately for each of the two specified pools and the well head equipment to be equipped with all necessary connections to permit accurate measurement of any natural gas, oil, or oil and gas produced from each separate pool as may be required by the Commission.

Attached to this application is a plat showing the location of said well and surrounding wells and landholdings with the acreage to be assigned the proposed gas unit outlined in red and a plat showing the mechanical conditions of said well at present and after the proposed dual completion.

All offset operators have been duly notified by copy of this application.

WHEREFORE, Applicant respectfully requests the Oil Conservation Commission of the State of New Mexico to issue its order authorizing Applicant to dualy

complete valid well in accordance with the provisions and rules and regulations of the Commission.

NEW MEXICO OIL COMPANY
