INSTRUCTIONS

This form shall be filed in duplicate with the District Office of the Oil Conservation Commission for each unit from which oil or gas is produced. A separate certificate shall be filed for each transporter authorized to transport oil or gas from such unit. After each certificate has been approved by the Oil Conservation Commission, a copy shall be forwarded to the transporter, a copy retained to the production log template obtained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in transporter involving less than the allowable production for one proration point, the operator shall be required to file a new certificate notify the Oil Conservation Commission District Office, and the transporter authorized by certificate on file with the Commission, by letter to the estimated amount of oil or gas to be moved by the transporter temporarily receiving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil or gas than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipeline connection and authorization to transport oil and gas from the property named therein and shall remain in full force and effect until:

- (a) Operator ownership changes;
- (a) The transporter is changed; or
- (c) The permit is cancelled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with, at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil or gas, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil or gas.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.
