FORM C-103
(Rev 3-55)

MISCELLANEOUS REPORTS ON WELLS

(Submit to appropriate District Office as per Commission Rule 1106)

1961 JUN 12 AM 11 23

Name of Company Humble Oil & Refining Company				Address Box 2347, Hobbs, N.M.			
Lease	Well No.	Unit Letter	Section	Township	Range		
New Mexico State M	43	F	19	22-S	37-E		
Date Work Performed	Pool			County			
6-10, 6-11-61	Eumont			Lea			

THIS IS A REPORT OF: (Check appropriate block)

- ☐ Beginning Drilling Operations
 ☒ Casing Test and Cement Job
 ☐ Other (Explain):
☐ Plugging
 ☐ Remedial Work

Detailed account of work done, nature and quantity of materials used, and results obtained.

Ran 3711' (121 jts) 2-7/8" J-55 6.40# csg set at 3720'. Cmt w/200 sx reg 45 g. cmt. POB 8:30 AM 6-10-61. Tested csg w/2000# for 30 min - no drop in pressure. Top of cmt 2250' - temp survey. WOC 18 hrs. Preparing to perf & frac.

Witnessed by C. L. Sparkman	Position Field Supt	Company Humble Oil & Refining Company

1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles. The paper then proceeds to a detailed analysis of the structure of the atom, showing that the structure is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles.

2. The second part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles. The paper then proceeds to a detailed analysis of the structure of the atom, showing that the structure is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles.

3. The third part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles. The paper then proceeds to a detailed analysis of the structure of the atom, showing that the structure is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles.

4. The fourth part of the paper is devoted to a discussion of the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles. The paper then proceeds to a detailed analysis of the structure of the atom, showing that the structure is determined by the laws of quantum mechanics, which are based on the principle of the uncertainty of the position and momentum of the particles.
