Box 68  
Eunice, New Mexico

Gentlemen:

We have been notified by El Paso Natural Gas Company that your Elliott B-20 Well No. 1 located in Unit E of Section 20, T-22-S, R-37-E, which was reclassified as an oil well in June, 1962, was disconnected from their gathering system on August 13, 1962. Please file Form C-110 showing either that the gas from this well is vented, or that a new connection has been made.

As you know, in the Eumont Pool casinghead gas can be vented for only 90 days without benefit of an NFO Order. Therefore, it will be necessary that you either secure a gas connection or obtain an NFO Order for this well prior to November 13, 1962.

Yours very truly,

OIL CONSERVATION COMMISSION
