

NEW EX-100 OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or its agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

ADVIS - ALL INFORMATION IS UNCLASSIFIED

[illegible]

01-20-1987, date on which the first of the two BOM's was
received, 2000 - 1987 = 1913 years.

1913 years ago from today would be 1600 AD.

1. The first step is to identify the problem or goal. This involves understanding the current situation and what needs to be achieved.

2. Next, it is important to gather information and resources. This can include research, consultation with experts, and identifying the tools and materials needed.

3. Once the information is gathered, the next step is to develop a plan. This plan should outline the steps to be taken, the timeline, and the responsibilities of each person involved.

4. After the plan is developed, it is time to implement it. This involves putting the plan into action and monitoring progress.

5. Finally, it is important to evaluate the results. This involves comparing the actual outcomes with the goals and identifying any areas for improvement.
