Tubb Gas Pool

Dear Sir:

In months prior to March 1963, this well was classified as a marginal gas well. During the months of March and April, 1963, this well was sand fraced and is now capable of making top allowable. We, therefore, request that this well be returned to top allowable status.

Attached please find Form C-103 on which the stimulation treatment and test data are described.

Very truly yours,

D. C. Capps
