June 15, 1937

New Mexico Oil Conservation Commission
Hobbs, New Mexico

Gentlemen:

Under date of May 4, 1937, we wrote you enclosing Application for Permission to use Central Tank Battery on our 160-acre Cary Lease, which is located in Section 33, T-12-S, R-37-E, Lea County, New Mexico. We are advised today by our Mr. F. W. Brigrance that your office had not received this application. No doubt these forms have been misplaced, as we have in our file a copy of the form sent you, dated May 4, 1937, which form was stamped by your office showing that it was received on May 6, 1937, approved on May 6, 1937, and signed by Guy Shepard, Oil & Gas Inspector, photostatic copy of which is attached.

We are also enclosing this same form of application rendered in triplicate. You will notice that the new copy of form is not signed by an officer of this company, due to the fact that all of the officers are out of the office on business or vacations, however, we are advising Mr. Brigrance, who is now in Midland, to communicate with you if it is necessary that the form be signed. We thought perhaps this would not be necessary since you will have the photostatic copy of the signed form sent you previously.

Thanking you, we are

Very truly yours,

ROWAN DRILLING COMPANY
