Place Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Rowan Drilling Company et al Will Cary Well No. 4 in SW of NW
Company or Operator Lease
of Sec. 22, T. 22-S, R. 37-E, N. M. P. M., Penrose-Shelly Field.
County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

The well was originally completed August 10, 1936, in the Penrose-Shelly Field from pay at 3466 to 3587'. Total depth of this hole was 3600'. Seven-inch OD casing was set and cemented at 3402'. This well has been producing on the pump and production has dropped to the point where it is now not a commercial well. It is proposed to mud off this old pay section and deepen to 7800' for production in the Mustanga formation. Five and one-half-inch casing will be set on top of or through the Mustanga pay formation and cemented with 500 sacks of cement in stages. One cement stage will cement off the old Penrose-Shelly pay from the 7-inch casing to 3587'.

Approved AUG 10 1948, 19____
except as follows:

Rowan Drilling Company
Company or Operator

By A. C. Allen
