Monument, New Mexico 88265

Gentlemen:

Due to the recently submitted gas-oil ratio test, your E. Wood Well No. 5 located in Unit B of Section 22, T-22-S, R-37-E, will be reclassified as an oil well in the Blinbry Oil & Gas Pool effective January 1, 1985, and the gas allowable will be cancelled that date.

Since this well shares a 160 acre gas proration unit with Well No. 10 in Unit H, it will necessitate the reduction of the gas proration unit to 120 acres by deleting Unit B. You will need to make application to our Santa Fe office for approval for the 120 acre non-standard proration unit, and it will also be necessary for you to submit 2 copies of a revised Form C-102 for each well outlining a 40 acre proration unit for Well No. 5 and the 120 acre proration unit for Well No. 10.

Further, in the event that a change of transporter(s) occurs due to this reclassification, please so indicate by filing Form C-104.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1

6/17/86 Amerada submitted special C-116 5/10/85 & requested reclassification to gas but no supplement was issued. Issued supplement 5025 to get it back on gas proration schedule
