

**NEW MEXICO OIL CONSERVATION COMMISSION**  
Santa Fe, New Mexico

**MISCELLANEOUS REPORTS ON WELLS**

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	<input checked="" type="checkbox"/>	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL

REPORT OF THE COMMISSIONER OF THE GENERAL LAND OFFICE

The following is a summary of the work done by the General Land Office during the year 1900. The work was divided into three main branches: the Surveying Branch, the Land Management Branch, and the Land Acquisition Branch. The Surveying Branch was responsible for the surveying of public lands, the Land Management Branch for the management of public lands, and the Land Acquisition Branch for the acquisition of public lands.

Surveying Branch

The Surveying Branch was responsible for the surveying of public lands. It was divided into three main divisions: the Surveying Division, the Mapping Division, and the Land Management Division. The Surveying Division was responsible for the surveying of public lands, the Mapping Division for the mapping of public lands, and the Land Management Division for the management of public lands.

Land Management Branch

The Land Management Branch was responsible for the management of public lands. It was divided into three main divisions: the Surveying Division, the Mapping Division, and the Land Management Division. The Surveying Division was responsible for the surveying of public lands, the Mapping Division for the mapping of public lands, and the Land Management Division for the management of public lands.

Land Acquisition Branch

The Land Acquisition Branch was responsible for the acquisition of public lands. It was divided into three main divisions: the Surveying Division, the Mapping Division, and the Land Management Division. The Surveying Division was responsible for the surveying of public lands, the Mapping Division for the mapping of public lands, and the Land Management Division for the management of public lands.
