OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the

R. Olsen Oil Co. Boyd Well No. 4 in CNM Co.  
Company or Operator Lease  
of Sec. 23, T. 22S, R. 37E, N. M. P. M., Drinkard Field  
Lea County.

**FULL DETAILS OF PROPOSED PLAN OF WORK**

**FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION**

The R. Olsen #4 Boyd has given us considerable difficulty in that it has blown out several times and at one time almost demolishing the Rotary Rig. In order to get away from this test as soon as possible we have decided to complete the test in the San Andres and not take it to the Drinkard zone. As a result, we have decided to run approximately 3600 ft. of 5½" casing and try and produce the well from 3600-3900 approximately. We have spent considerable money and time and as a result before anything more serious happens we beg your favor in allowing us to complete the above well as above stated.
