INSTRUCTIONS

This form shall be completed and filed in OCS-DML Permit XVI with the District Office of the Oil Conservation Commission covering the unit from which oil or gas is produced and moved. It shall be filed by the transporter authorized to transport oil or gas from the unit. After authorization is given approved by the Oil Conservation Commission, a copy shall be retained by the transporter and one copy returned to the District Office for filing with the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the unit. In the event of a temporary change in the transporter involving less than the allowable production for one production period the operator shall file a new certificate to modify the Oil Conservation Commission District Office transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil or gas to be moved by the transporter temporarily moving oil or gas from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move out more oil or gas than the estimated amount shown in said notice.

This certificate when issued, accepted and approved by the Oil Conservation Commission shall constitute a permit for pipeline connection and authorization to transport oil and gas from the property interest therein and shall remain in full force and effect until:

- (a) Change in ownership changes
- (a) The transporter is changed or
- (c) The permit is canceled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where a new certificate is filed to cover a change in operating ownership or change in the transporter designated to move oil or gas, show under "REMARKS" the operator, owner or operator, and the transporter previously authorized to transport oil or gas.

A separate report shall be filed to cover each production unit as designated by the Oil Conservation Commission.
