Gentlemen:

Effective January 1, 1964 your F. J. Danglade Well No. 1 located in Unit B of Section 24, T22S, R37E is reclassified as an oil well in the Blinebry Pool. This reclassification is necessitated by your recently submitted gas-liquid ratio test which indicates the well to be producing with a gas-oil ratio of less than 32,000 and from your letter which indicates the gravity of the produced liquid to be under 51°.

Please submit a corrected Form C-128 showing a 40 acre dedication, only, and also submit, if necessary, Form C-110 indicating gas and oil transporters.

Yours very truly,

OIL CONSERVATION COMMISSION
