Re: Application to Dually Recomplete
Gulf Oil Corporation Amanda No. 1
Amanda Pool, Lea County, New Mexico

Gentlemen:

By this letter of application Gulf Oil Corporation wishes to state the following:

(a) That the Gulf Oil Corporation Amanda No. 1, located in the NW/4 SE/4 of Section 25, T-22-S, R-37-E, was completed May 29, 1947 at a plug back depth of 7174'. That subject well was dually completed under Order DC-49 on January 31, 1954. The attached Exhibit "A" shows the location of this well on the Gulf Oil Corporation Amanda Lease together with the location of all offset wells.

(b) That subject well has 5-1/2" casing set at 7214' and cemented with 200 sacks of cement. The well is a dual completion producing from the perforated interval 7065-7090' in the Amanda Pool and 6020-6060' and 6080-6120' in the Tubb Pool.

(c) That the applicant proposes to recomplete the well in the following manner:

- (1) Abandon the lower zone 7065-7090' by setting a plug at 6150'.
- (2) Perforate the 5-1/2" casing within the approximate interval of 5410-5635' in the Blinbry Gas Pay.
- (3) Set production type packer below these perforations at approximately 5900' to separate the two pay zones.
- (4) Produce the Tubb gas through the tubing and Blinbry gas through the tubing-casing annulus.

(d) That the granting of this application for permission to produce the well as a dual completion with gas from the Blinbry and gas from the Tubb is in the interest of conservation and the protection of correlative rights.

(e) That the applicant will comply with all rules and regulations of the New Mexico Oil Conservation Commission to maintain separation of production from the two pay zones.

(f) That the manner and method of the proposed dual completion is mechanically feasible and practical.

New Mexico Oil Conservation Commission
February 26, 1954
Page 2

(g) That by copy of this letter of application, all offset operators are notified of the proposed dual completion.

Therefore, Gulf Oil Corporation requests that the Oil Conservation Commission grant permission to the applicant to dually complete the subject well as proposed in this application.

Respectfully submitted,

C. F. TAYLOR
Area Production Superintendent
