2. The first part of the document is a letter from the

author to the editor of the journal.

The letter is dated 10th March 1964 and is addressed to the

editor of the journal. The author states that he has been

working on the problem of the structure of the

crystal lattice for some time and has now completed his

work on the subject.

He has found that

the structure of the crystal lattice is more complex than

previously supposed. He has also found that the

structure of the crystal lattice is

more complex than previously supposed. He has also found that the

structure of the crystal lattice is

more complex than previously supposed.

He has also found that the
