

-2-

September 11, 1963

Mr. Joe D. Ramey
Supervisor, District 1
Oil Conservation Commission
Hobbs, New Mexico

the operator may produce any portion of the allowable that he desires from each well. As the combined production status for both wells since July 1960 when the No. 3 well went on production has not exceeded a 160-acre one-well non-marginal allowable in the Tubb Gas Pool, the Commission does not feel that any action is necessary on its part concerning these two wells. Of course, any interested party may file an application for hearing concerning the wells and the production therefrom if he so desires.

Very truly yours,

J. M. DURRETT, Jr.
Attorney

JMD/esr

cc: Mr. John F. Russell
