

NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

CHIEF OF BUREAU OF MEDICAL EDUCATION

The American Medical Association is a non-profit corporation organized for the purpose of promoting the science and art of medicine, and the health of the people. It is composed of members who are physicians, surgeons, dentists, and other medical practitioners, and who are interested in the advancement of the medical profession and the welfare of the community.

It is the policy of the Association to maintain the highest standards of medical education and practice.

The Association is organized into several departments, each of which is responsible for a specific function. These departments are the Department of Medical Education, the Department of Medical Research, the Department of Medical Legislation, and the Department of Medical Publicity.

The Department of Medical Education is responsible for the supervision of the medical schools and the medical profession. It is the duty of this department to see that the medical schools are maintained at a high standard of efficiency, and that the medical profession is kept up to date in its knowledge and practice.

The Department of Medical Research is responsible for the advancement of the science of medicine. It is the duty of this department to conduct research in the various branches of medicine, and to disseminate the results of such research to the medical profession.

The Department of Medical Legislation is responsible for the enactment of laws which will promote the health of the people. It is the duty of this department to study the various medical problems which arise from time to time, and to propose legislation which will deal with these problems in a wise and effective manner.

The Department of Medical Publicity is responsible for the dissemination of medical knowledge to the general public. It is the duty of this department to keep the public informed of the latest advances in medicine, and to promote the health of the community by the use of proper publicity.
