Re: IN THE MATTER OF APPLICATION OF
SKELLY OIL COMPANY FOR AN ADMIN-
ISTRATIVE ORDER GRANTING PERMISSION
TO DUAL COMPLETE ITS BAKER #G# NO.
1 IN THE BLINBRY GAS POOL AND THE
TUBB GAS POOL, LEE COUNTY, NEW
MEXICO.

Complainant:

Came now SKELLY OIL COMPANY, a Delaware Corporation with offices in Tulsa, Oklahoma and Hobbs, New Mexico, hereby petitioning the Secretary of the New Mexico Oil Conservation Commission for administrative approval for an order granting permission to dual complete their Baker #G# well No. 1 as a gas well in the Blinbry Gas Pool and as a gas well in the Tubb Gas Pool, Lee County, New Mexico, and in support thereof does state:

1. That the petitioner is the operator of all gas leases held on the 160 acres confined by the NE 1/4, Section 24, Township 22 South, Range 37 East, N.M.P.M., Lee County, New Mexico, and contains but a single royalty owner.
2. That the petitioner's Baker #G# No. 1 well is located 660' from the North and 440' from the East lines of the section.
3. That the petitioner will complete their Baker #G# No. 1 well entirely and only within the vertical limits of each the Blinbry and Tubb Gas Pools as defined by the New Mexico Oil Conservation Commission in a manner described below and as shown on attached plan.
 - a. Set 7 5/8" OD casing at approximately 2800' and circulate cement to surface, then run 7" OD casing to total depth and cement in conformance with New Mexico Oil Conservation Rules and Regulations.
 - b. Perforate the Tubb and Blinbry formations within the vertical limits of said Gas Pools as defined by the New Mexico Oil Conservation Commission.
 - c. Run 2" OD tubing with a Baker Model #G# production packer or equivalent to be set in such a manner as to segregate the two perforated zones to produce the Tubb gas zone.
 - d. Run 2" OD tubing in the 7" OD tubing and the 7" OD casing annulus to produce the Blinbry gas zone.
4. That the manner in which the petitioner has set out to complete the proposed dual is both mechanically feasible and practical and conforms to the Commission's policies and specifications as pertaining to the dual completion of dual gas and gas wells in the state of New Mexico.
5. That a diagrammatic sketch showing the producing intervals anticipated and the physical equipment to be used in dual completing this well is hereto attached.
