Place

Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

DUPLICATE

Following is a notice of intention to do certain work as described below at the

Lem Peters

L. J. May

Well No. 3

in NE $\frac{1}{4}$ of SE $\frac{1}{4}$

Company or Operator

Lease

of Sec. 27, T. 22S, R. 37E, N. M. P. M., Penrose Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We intend to run 150' of 15 $\frac{1}{2}$ ", 60 lb. casing to be cemented
with 100 sacks of cement.

OCT 18 1938

Approved _____, 19____
except as follows:

Lem Peters

Company or Operator

By

Beverly Chambers

Position

Secretary

Send communications regarding well to

Name

Lem Peters

Address

Box 950, Midland, Texas.

OIL CONSERVATION COMMISSION,

By *[Signature]*

Title OIL & GAS INSPECTOR

1. The first part of the paper discusses the importance of understanding the underlying mechanisms of the observed phenomena. It highlights the need for a comprehensive approach that combines theoretical analysis with empirical data. The authors argue that a deep understanding of the system's dynamics is essential for developing effective interventions.

2. The second part of the paper presents a detailed analysis of the data collected from the study. It shows that the observed patterns are consistent with the theoretical model proposed in the introduction. The authors provide a thorough explanation of the results, including the statistical significance of the findings and the limitations of the study.

3. The third part of the paper discusses the implications of the findings for future research and practice. It suggests that the results of this study could be used to inform the development of new interventions and policies. The authors also discuss the need for further research to explore the underlying mechanisms of the observed phenomena in greater detail.

4. The final part of the paper provides a conclusion and a summary of the key findings. It emphasizes the importance of understanding the underlying mechanisms of the observed phenomena and the need for a comprehensive approach that combines theoretical analysis with empirical data. The authors also provide a list of references for further reading.
