OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intentiton to do certain work as described below at the \_\_\_\_\_

Skelly Oil Company J.V. Baker Well No. 3 in CNE/4, NW/4  
Company or Operator Lease  
of Sec. 27, T. 22, R. 37, N. M. P. M., South Eunice Field,  
Lea County.

## FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Original intentions were to drill this well with Spudder, using five strings pipe. We have changed our plans and now intend drilling with rotary tools to about 3400', set and cement 7" OD casing at that point with 400 sacks cement and then drill well in with cable tools. Casing program changed to the following:

with 125 sacks  
9-5/8" - 36" Seamless casing to be set at approximately 200' for surface string.  
7" OD - 24" Seamless casing to be set at approximately 3400' with 400 sacks.

Approved November 30, 1936., 19\_\_\_\_  
except as follows:

The 7" string of casing must be cemented with a two-stage job. The lower stage shall fill to the base of the salt and the upper stage shall fill back to the surface pipe.
