

NEW MEXICO OIL CONSERVATION COMMISSION

Santa, Fe, New Mexico

MISCELLANEOUS NOTICES

Submit this notice in triplicate to the Oil Conservation Commission or its proper agent before the work specified is to begin. A copy will be returned to the sender on which will be given the approval, with any modifications considered advisable, or the rejection by the Commission or agent, of the plan submitted. The plan as approved should be followed, and work should not begin until approval is obtained. See additional instructions in the Rules and Regulations of the Commission.

OIL CONSERVATION COMMISSION,

By Guy ShepardTitle Oil Conservation

1. The first step is to identify the problem.

2. The second step is to define the problem.

3. The third step is to analyze the problem.

4. The fourth step is to develop a solution. This step involves identifying the resources available and determining how they can be used to solve the problem. It also involves identifying the potential risks and developing a plan to mitigate them.

5. The fifth step is to implement the solution. This step involves putting the plan into action and monitoring the progress. It also involves identifying any problems that arise and developing a plan to solve them.

6. The sixth step is to evaluate the solution. This step involves assessing the effectiveness of the solution and determining whether it has solved the problem. It also involves identifying any lessons learned and developing a plan to improve the process.

7. The seventh step is to communicate the results. This step involves sharing the results of the solution with the relevant stakeholders and obtaining their feedback. It also involves identifying any areas for improvement and developing a plan to address them.

8.

9. The eighth step is to monitor the solution.

10. The ninth step is to evaluate the solution.

11.

12. The tenth step is to communicate the results.

13. The eleventh step is to monitor the solution.

14. The twelfth step is to evaluate the solution.

15. The thirteenth step is to communicate the results.

16. The fourteenth step is to monitor the solution.

17. The fifteenth step is to evaluate the solution.

18. The sixteenth step is to communicate the results.

19. The seventeenth step is to monitor the solution.

20. The eighteenth step is to evaluate the solution.

21. The nineteenth step is to communicate the results.

22. The twentieth step is to monitor the solution.

23. The twenty-first step is to evaluate the solution.

24. The twenty-second step is to communicate the results.

25. The twenty-third step is to monitor the solution.

26. The twenty-fourth step is to evaluate the solution.

27. The twenty-fifth step is to communicate the results.

28. The twenty-sixth step is to monitor the solution.

29. The twenty-seventh step is to evaluate the solution.

30. The twenty-eighth step is to communicate the results.

31. The twenty-ninth step is to monitor the solution.

32. The thirtieth step is to evaluate the solution.

33. The thirty-first step is to communicate the results.

34. The thirty-second step is to monitor the solution.

35. The thirty-third step is to evaluate the solution.
