Midland, Texas

Dear Mr. Bourg:

A check of the file for your State No. 1 in Unit N of Section 32, T-22-S, R-37-E indicates that although you were notified by form letter dated October 1, 1957 that it would be necessary for you to either obtain a No-flare Order or a casinghead gas connection for this well by December 9, 1957, we have as yet received neither.

Please be advised that unless you have either made application for the No-flare Order or filed Form C-110 showing a casinghead gas connection by January 15, 1958 the allowable for this well will be cancelled.

Yours very truly,

OIL CONSERVATION COMMISSION
