# CLIMATE ENGINEERING

The American Society of Climate Engineers (ASCE) was founded in 1987 to promote the development and application of climate engineering. The Society's primary concern is the advancement of the science and technology of climate engineering, and the promotion of the professional interests of its members. The Society's activities include the publication of a journal, the holding of annual meetings, and the sponsorship of research and development projects.

## MEMBERSHIP AND SUBSCRIPTIONS

The American Society of Climate Engineers (ASCE) is a non-profit organization. Its membership is open to all individuals who are interested in the field of climate engineering. The Society's membership is divided into several categories, including individual, corporate, and life membership. The Society's journal, *Journal of Climate Engineering*, is published annually. The journal is available to all members of the Society. The Society also sponsors research and development projects in the field of climate engineering. The Society's activities are supported by the contributions of its members and the proceeds of its publications.

For more information about the American Society of Climate Engineers, please contact the Society's office at 1234 Main Street, Suite 500, New York, NY 10001. Telephone: (212) 123-4567. Fax: (212) 123-4568.
