Dear Mr. Elder:

On checking our files I find that on February 23, I mailed to you a copy of the Rules and Regulations of the New Mexico Oil Conservation Commission. To date, I have not received these forms which are required. I have received form C-102, Notice of Intention to Plug well which has been approved.

Your letter of February 20, reflects that you did run 259' of 12 3/4" casing and cemented with 200 sacks. Also, an intermediate string of 2810', 8 5/8" was run and cemented with 250 sacks. One these two strings of pipe you didn't file C-102 and C-103 in this office.

You have filed at our request C-105, Log of Well. It will be necessary for you to file these forms and the form C-103 showing the plugging method outlined on C-102.

Enclosed please find approved C-102.

Very truly yours,

OIL CONSERVATION COMMISSIONS
