Mr. Roy Yarbrough  
Oil & Gas Inspector  
Oil Conservation Commission  
Box 1545  
Hobbs, New Mexico

Dear Mr. Yarbrough:

Your letter of February 16 received  
with reference to our T. O. May #1 Well.

On this well we used 259' of 12-3/4" surface  
casing, cemented with 200 sacks of cement; the intermediate string  
was 2810' of 8-5/8" cemented with 250 sacks of cement. Total depth  
of the well was 6550 feet.

If you will let us know the information you  
desire on Form C-102, we will endeavor to get you a report.  
Also, please send us some Report Form Blanks.

Yours very truly,

  
J. H. ELDER
