Attention: Mr. A. L. Porter

Dear Mr. Porter:

Mr. Randall Montgomery, Proration Manager of Hobbs District, has informed me of the fact that we, the Western Oil Fields, Inc., must apply for a "No-Flare" order to comply with provisions set forth in Commission Order R-610.

The lease concerned is our Shell State #1 in Unit B of Section 36, T22S, R37E, Blinchy Oil Pool, Lea County, New Mexico.

We have no pipeline connection on the lease because the volume of casinghead gas from the well is too low for economic purposes. We only produce approximately 5 barrels of oil per day at a 25,000 to 1 ratio. The 125,0 MCF of gas and the 5 barrels of oil are produced in about one hour of flowing time per day.

By experimenting with flow conditions we have found this the best method of producing the well.

Would you please let me know the procedure for obtaining the "No-Flare" order.

Thank you very much.

Sincerely Yours,

WESTERN OIL FIELDS, INC.
