Attn: Mr. William J. LeMay - Director

Gentlemen:

Clayton Williams Energy, Inc. respectfully requests your approval of this administrative application for the subject Unorthodox Gas Well Location and Simultaneous Dedication.

Clayton Williams Energy, Inc. is planning to re-complete it's State "A" A/C 1 Well No. 76 in the Jalmat Tansil Yates 7-Rivers (Pro Gas) Pool. It is our desire to also simultaneously dedicate the existing 640-acre Jalmat Gas Proration Unit assigned to our State "A" A/C 1 Well Nos. 77, 78, 13, 60, 66, 122, 71, 20, 75, 22, 57, and 106 to all thirteen wells. As a result, the location of the State "A" A/C 1 Well No. 76 becomes unorthodox in that it is less than 990 feet from the outer boundary of the proration unit. The location of Well No. 76 is 660 feet FNL and 660 feet FEL of Section 14, T-23-S, R-36-E, Lea County, New Mexico.

In order to prevent waste, Clayton Williams Energy, Inc. respectfully requests your approval of this administrative application for an unorthodox gas well location and simultaneous dedication. Attached is a map showing offset operators and a Form C-102 plat. A copy of this letter and attachments are being furnished by Certified Mail to offset operators as their notice of these applications.

If you have any questions or require any further information concerning these applications, please contact me at (915) 682-6324.
