Re: NSL-2730
State A A/c-1 #82-B
Sec. 15, T23S, R36E
Jalmat Recompletion

Gentlemen:

NSL-2730 dated December 7, 1989, approved the non-standard location of the above-referenced well which was to be dedicated to a 240-acre proration unit. Order R-9073 revised the proration units on your State A A/C-1 lease and this well now lies within a 480-acre proration unit. As specified in NSL-2730 you will need to seek an amendment to reflect this change.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

Attention: Jay Cherski

Administrative Order NSL-2730

Dear Mr Cherski:

Reference is made to your application of November 7, 1989 for an unorthodox Jalmat gas well location in an existing non-standard 240-acre gas spacing and proration unit (GPU) for said Jalmat Gas Pool comprising the NW/4 of Section 14 and the N/2 NE/4 of Section 15, both in Township 23 South, Range 36 East, NMPM, Lea County, New Mexico. Said GPU was authorized by Division Order R-4361 as amended, and has dedicated therein, the State "A" A/C-1 Well No. 28 located in Unit F of said Section 14.

It is our understanding that the subject well in this application is currently temporarily abandoned in the Langlie-Mattix Pool and will be plugged back to the Jalmat Gas Pool upon issuance of this order.

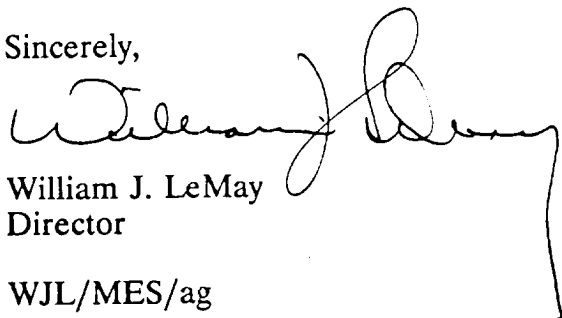

By authority granted me under the provisions of Rule 2(c) of the Special Rules and Regulations for the Jalmat Gas Pool, as promulgated by Division Order No. R-8170, as amended, the following described well located at an unorthodox gas well location is hereby approved:

State "A" A/C-1 Well No. 82
660' FNL - 1980' FEL (Unit B) of said
Section 15.

Also, you are hereby authorized to simultaneously dedicate Jalmat Gas production from the State "A" A/C-1 Well No. 82 with the State "A" A/C-1 Well No. 28; furthermore, you are hereby permitted to produce the allowable assigned the GPU from both wells in any proportion.

Both of said Sections 14 and 15 were subject, in part, to Division Case No. 9775, whereby the applicant is seeking the rededication of acreage in the Jalmat Gas Pool. If, subsequent to an order issued in said Case No. 9775, the subject well in this administrative order is affected and placed in a redesignated Jalmat spacing unit, and such redesignation results in an unorthodox well location for the No. 82 well, the operator shall seek an amendment to this administrative order to properly reflect such changes. Said amendment shall be filed within 90 days from the date of issuance of an order in said Case No. 9775 and pursuant to Rule 2(c) of said Order No. R-8170, as amended.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. LeMay", with a long, sweeping horizontal stroke extending to the right.

William J. LeMay
