Gentlemen:

A study of the electric log for your Watkins No. 2 located in Unit 0 of Section 15, T-23-S, R-36-E indicates that the top of the Langlie Mattix Pool is at 3565 feet, which is below the perforations in the well. This well is, therefore, being reclassified from the Langlie Mattix Pool to the Jalmat Pool.

Yours very truly,

OIL CONSERVATION COMMISSION
