Re: Application to Downhole Commingle
Stevens "B"15 Well #3
Unit N, Sec.15, T23S; R36E
Jalmat/Langlie Mattix 7-Rvrs.Queen

Dear Mr. LeMay

Charles W. Kemp respectfully requests administrative approval under provisions of Rule 303-C to downhole commingle production from the Jalmat Gas Pool and the Langlie Mattix Oil Pool within the Stevens "B"15 #3 well. This well is presently producing from the Langlie Mattix zone with artificial lift. Approval to commingle the two zones will allow this well to be produced which otherwise it would be unable to produce due to downhole communication.

This is a federal lease #LC-030556b and the interest is common in all depths.

The offset operators have been notified of this application by certified mail. A copy of this notification is attached.

Sincerely,

CHARLES W. KEMP
Operator
