SUBJECT: State JCT SWD #1-B in Sec 16, T23S, R36E
R-5194

Dear John:

In response to your recent inquiry concerning your taking additional water for disposal into the above well from an adjacent lease in the W/2 SW/4 of Sec 16, T23S, R36E, the James N. Evans Aztec St #2-L.

I checked with David Catanach in our Santa Fe office, and he said he saw nothing in this order that specified that this could not be done. The water from the adjacent lease should be compatible with your lease water since it will be from the Y-Qu-SR. It is our understanding that the water would be piped to your system and your system will continued to be operated in accordance with our rules and regulations.

Very truly yours,

OIL CONSERVATION DIVISION
