This well has been temporarily abandoned since June, 1969 and we would like to retain the temporary abandonment status on this well at this time. We recently swab tested the well and plan to install a pumping unit within the next 12 months.

The present condition of the well is such as to prevent damage to the producing zone, migration of hydrocarbons or water, the contamination of fresh water or other natural resources, or the leakage of any substance at the surface.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
