6-13-97 ---

Pressured tested the casing for 30 minutes. Started test at 540 PSI and after 30 minutes pressure was 520 PSI. Test was witnessed by Patricia Hutchings of the BLM. Lanexco, Inc. requests temporary Abandonment Status for 3 years. We feel this well could be re-completed in the future, possibly in a different zone, but if we have to plug the well, it would cause us to lose the wellbore due to the cost to do a re-entry.
