	☐ Non-Routine Fracturing
	☐ Water Shut-Off
	☐ Conversion to Injection
	<u>Casing integrity and braden</u>

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

9-28-95 Waited on BLM for 45 minutes. Proceeded as follows:
Pressured the casing up to 530 PSI and monitored for 30 minutes on a pressure recorder. There was a pressure drop of 15 PSI. The bradenhead was 0 PSI. Lanexco, Inc. respectfully requests this well be allowed to continue temporarily abandoned status. Due to the continued low price of oil and gas we are paid, it is still unfeasible at this time to recomplete this well. A recompletion is planned as soon as prices will make it worthwhile, but we do not want to plug it and lose the wellbore
