Gentlemen:

Our records indicate that the casinghead gas is being flared from your Belcher No. 1 in Unit L of Sec. 7, T-22-S, R-38-E, an oil well in the Tubb Gas Pool.

You are hereby advised that you must either secure a gas connection or apply for a Hearing to obtain a No-Flare Order for this well. If you have not secured a gas connection within thirty days, the allowable will be cancelled until such time as a connection is made or the No-Flare Order has been granted.

Yours very truly,

OIL CONSERVATION COMMISSION
