Re: McCallister Well No. 1-D
Sec. 7, T-22-S, R-38-E

Gentlemen:

Commission Order No. R-1151-A requires that gas-oil ratio tests be conducted quarterly on the subject well. In order that the Commission may more readily check for compliance with this order, please conduct these tests during the months of February, May, August and November, and report the results on Form C-116 no later than the 10th of the following month after which the test is taken. Please indicate on Form C-116 that the test is taken in compliance with Order No. R-1151-A.

This testing schedule is to be followed until the well is depleted, re-completed or connected to a gas purchasing line.

Yours very truly,

OIL CONSERVATION COMMISSION
