Hobbs, New Mexico 88240

Gentlemen:

Due to the recently submitted gas-oil ratio test for the V. M. Henderson Well No. 6 located in Unit C of Section 30, T-21-S, R-37-E, the Blinebry zone is being reclassified as a gas zone in the Blinebry Oil & Gas Pool effective January 1, 1984, and the oil allowable will be cancelled that date. Please advise when you have complied with the provisions of Order No. R-1670 governing gas wells in the Blinebry Pool in order that a gas allowable can be assigned.

Since the reported gas-oil ratio for the A. H. Blinebry Federal NCT-1 Well No. 6 located in Unit B of Section 19, T-22-S, R-38-E, is under 50,000/1, the Blinebry zone in this well will be reclassified from gas to oil and the gas allowable will be cancelled effective January 1, 1984. Please submit two copies of a revised Form C-102 outlining a 40 acre proration unit for the well.

Yours very truly,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District 1
