Mr. A. L. Porter, Supervisor and Proration Manager
New Mexico Oil Conservation Commission
P. O. Box 2045
Hobbs, New Mexico

Gentlemen:

USGS Form 9-331a, Sundry Notices and Reports on Wells, was filed January 10, 1956, indicating we desired to drill above subject well as a dual completion in the Blinebry Gas and Tubb Gas Pools.

Oil was encountered in the Blinebry zone and we desire to produce the well from that zone as an oil well. There is a possibility that we will dual complete this well with the Tubb Gas Pool.

Attached please find the required number of copies of Form C-104, Request for (Oil) Allowable and Form C-110, Certificate of Compliance and Authorization to transport Oil and Natural Gas on above subject well. We respectfully request that an allowable be assigned this well so that we may produce oil from the Blinebry. USGS Form 9-330 Log of Oil or Gas Well, will be filed on this well within the required 20 days.

If the assignment of an allowable under these circumstances is not permitted, please advise.

Yours very truly,

THE TEXAS COMPANY

By 
Asst. Dist. Superintendent
