Texaco requests an extension on the TA status for the above well.
A casing integrity test was performed on the subject well on 1/23/95 (witnessed by Pat Hutchings of the BLM).
The subject wellbore does not present any danger to the surrounding environment.

Justification: Given the favorable size and condition of the wellbore and the particular location of the Blinebry #10, Texaco is evaluating the possibility of converting the subject well to a salt water disposal facility.
