RE: Reclassification of Well
Lineberry #1, Unit G, Sec. 29, T22S, R38E
Blinebry Oil & Gas Pool

Gentlemen:

According to the recently submitted 'scheduled' gas/oil ratio test the above-referenced well will be reclassified from an oil well to a gas well in the Blinebry Oil & Gas Pool effective January 1, 1993, and the oil allowable cancelled effective that date.

If for some reason you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by November 9, 1992.

If the well is to be reclassified to a gas well, please submit the following:

- 1) Revised C-102 outlining acreage to be dedicated to gas proration unit. If proration unit size or well location requires approval of non-standard proration unit or unorthodox location, please furnish order number or copy of your application of approval.
- 2) C-104 showing reclassification from oil to gas and designating transporters of condensate and dry gas.
- 3) Also indicate that gas is separately metered.

If you have questions concerning the above, please contact Evelyn Downs at (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I

*Submitted new test
Remain oil -*
