Re: Order No. MC-1106 Granting TEXACO Inc.
Approval to Dually Complete the A. H.
Blinebry (NCT-2) Well No. 2 in the
Drinkard and Blinebry (Oil) Pools, Lea
County, New Mexico

Attention: Mr. A. L. Porter, Jr.

Gentlemen:

TEXACO Inc. was granted administrative approval by Order No. MC-1106 dated October 26, 1961 to dually complete the A. H. Blinebry (NCT-2) Well No. 2 in the Drinkard and Blinebry (Oil) Pools. The well is located in Unit "N", Section 29, T-22-S, R-38-E. Subsequent to issuance of Order No. MC-1106 it was discovered that the gas-oil ratio of the west offset well, A. H. Blinebry (NCT-2) Well No. 5, has increased to above the 32,000 to one limit for Blinebry (Oil) wells and must now be re-classified as a Blinebry (Gas) well. In addition it is noted that the gas-oil ratios of other Blinebry (Oil) wells in the area are approaching the 32,000 to one limit for oil wells in the Blinebry Pool. A plat of the area is attached showing high gas-oil ratio Blinebry wells in the vicinity.

In view of the facts recited above, TEXACO Inc. plans to defer completion of the subject well in the Blinebry Pool and to request that an 80-acre non-standard gas proration unit consisting of the S/2 SW/4 of Section 29, T-22-S, R-38-E, be assigned Well No. 5 in the Blinebry (Gas) Pool which will include the acreage under the subject well. In view of these circumstances, Order No. MC-1106 is no longer required and it is respectfully requested that same be cancelled.

Application for the above-mentioned 80-acre non-standard gas proration unit is being forwarded under separate cover.

Yours very truly,

H. N. Wade

Assistant District Superintendent

LMF-MSV

cc: NMOCC, Hobbs
