

September 21, 1956

- (d) The length or width of the proposed unit does not exceed 5,280 feet.
- (e) Gulf Oil Corporation is lessee and operator of all the acreage comprising the proposed unit as shown on the attached plat, and by copy of this letter of application, all operators owning interest in the section in which the proposed unit is located and all operators within 1,500 feet of the proposed unit well are notified by registered mail of the intent of Gulf Oil Corporation to form the proposed non-standard gas proration unit. (See attached affidavit.)
- (5) The approval of this application for a 120-acre non-standard gas proration unit will, in the opinion of the applicant, prevent waste, protect correlative rights and serve the best interest of conservation.
- (6) Gulf Oil Corporation and Western Oil Fields, Inc. are in the process of communitizing their respective leases to form a standard 160-acre gas proration unit consisting of the above described 120-acre non-standard gas proration unit and the NE/4 of SE/4 of Section 30, T-22-S, R-37-E, Lea County, New Mexico. When this communitization agreement is completed, the New Mexico Oil Conservation Commission will be advised accordingly, and a corrected Gas Well Plat, Form C-128, will be submitted with a request for redesignation and allowable for a 160-acre unit.

In view of the existence of the facts herein stated and compliance with the provisions of Rule 5 (b) of the Oil Conservation Commission's Order No. R-520, Gulf Oil Corporation requests that the Secretary of the Commission approve the above described non-standard gas proration unit.

Respectfully submitted,

GULF OIL CORPORATION
