OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Hobbs, New Mexico
(Place)

July 6, 1954
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the Vivian

Gulf Oil Corporation
(Company or Operator)

Well No. 5 in D
(Unit)

NW 1/4 NW 1/4 of Sec. 30, T. 22-S, R. 30-E, NMPM, Blinebry Gas Pool

Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

When in the process of dually completing subject well, the oil string was checked a casing leak was discovered between 160' and 177' in the 7" casing. In an effort to repair this leak, 2 holes were perforated in the 7" string at 2180' and an attempt was made to recement the 7" casing. But the salt section broke down and circulation was not established behind the 7" casing. The holes were cemented (at 2180') with 350 sacks Regular cement. Efforts to pump down 7" - 9-5/8" annulus with 1500# failed. Believe there is some bridge or salt ring somewhere between surface and 2180'.

In an effort to repair original holes, propose to perforate approximately 500' and bring cement back to surface behind 7" casing.

Approved....., 19.....
Except as follows:
