Hobbs, New Mexico

Gentlemen:

In checking our records we find that no reports have been filed for your Gulf Drinard No. 2 in Unit #1 of Section 30, T-22-S, R-33-E since February 25, 1959 at which time Form C-103 indicating that the well was temporarily abandoned was approved. As you know, the Commission requires that Form C-103 indicating status and future plans for temporarily abandoned wells be filed at six month intervals.

Unless you have definite plans for the future development of this well, this office sees no reason that it should not be permanently plugged. Please advise as to your intention in this regard by filing appropriate forms.

Yours very truly,

OIL CONSERVATION COMMISSION

Joe D. Ramey
Proration Manager
